Ref – 2018 Price Increase

Dear Customer,

We at Master Abrasives continue to improve our offering both technically and commercially to ensure that we offer all our customers a complete engineered solution.

We do, however, also need to consider market pressures and the costs incurred in the production and running of a business and in line with our normal policy we will be implementing a general price increase of 4% from the 1st March 2018. All branded partner price increases will be applied separately.

An updated electronic version of our price list will be available to download from our website by 1st March 2018. This price increase will apply to our standard stock items; implementation of this increase to any contract, consignment or specially negotiated price should be discussed on a case by case basis with your local Master representative – contact details below.

We would like to take this opportunity to thank you for your support and continued business this year and assure you of our ongoing commitment to serving your abrasive and tool needs. Should you have any questions, please do not hesitate to contact your local Master representative.

Yours faithfully,

Paul J. Batson
Managing Director
