

MASTER ABRASIVES

Master Abrasives exhibits at Troy Means Business Show

As a new supplier to the Troy Group, Master Abrasives is exhibiting at the prestigious Troy Means Business show for the first time in April, offering special deals on the range of high-quality Master quick change discs and cost-effective ZIPP range of Air Tools.

The Master stand will display some of its own products such as MASTER® branded grinding wheels, mounted points, carbide burrs, and the recently launched range of Master Convolute wheels, Unitized products, and quick change discs. The stand will also show the range of ZIPP® Air Tools, a cost-effective solution for high-quality industrial air tools.

Master Abrasives will be offering members a special show deal on the day for a free air tool and disc holder when ordering Master quick change discs. The tool being offered is the ZIPP ZP319 air angle grinder, which is ideal for high speed grinding and polishing and is usually priced at £54 list excluding VAT. The MRD type discs by Master are a standard range of stocked discs with the threaded screw-type mounting system which provides an excellent solution for high volume, high production operations.

The recently launched range of Master quick change discs is available from stock in Aluminium Oxide, Zirconium, Ceramic, Silicon Carbide, surface conditioning and Unitized specifications. These discs are widely used in many industries including aerospace, fabrication, foundry, and automotive, for grinding or blending and finishing. Master quick change discs are complemented by the cost-effective range of ZIPP air die grinders, which will also be on show at Troy Means Business event.

Master Abrasives will be displaying the new range of products on Stand 41 in Hall Spa at the Troy Means Business show, being held at the Wing at Silverstone Circuit on 27th April 2017.
